

Sumter County Development Authority Announces New Project: Processing Center Creating 100+ New Jobs, With Many More to Follow, Within a \$15 Million Investment

BandD Foods, a supplier of frozen meat products, has opened a new facility at the former 'Glover' building, at 119 Old Andersonville Road. The building will serve as a production and management office, already well-equipped with refrigeration and dock doors.

Much of the BandD Foods product line consists of a variety of fully cooked frozen meals of both battered and non-battered products and is known as a 'developer of specialty food products.'

Rusty Warner, Executive Director of the Sumter County Georgia Development Authority, stated, "BandD Foods will quickly create 100+ new jobs within a \$15 million investment. They are a perfect fit for this building and community. We will work closely with them to help fill the positions and with any other future needs."

The Sumter County Development Authority has a highly engaged board, responsible for cultivating new business while maintaining a balance of workforce, buildings, and building options.

The Authority consistently promotes our county and is always looking for outside-the-box innovative ways to attract businesses to our community.

"Once a company chooses Sumter County, they usually find our community will genuinely reach out to embrace their project," said Warner.

About BandD Foods

BandD Foods is a U.S. corporation headquartered in Boise, ID, founded in 1972.
